Aquatic Science & History

The Delaware River Smiling Steamboat!

As the whistle blows, this replica of an 1890 steam powered stern-wheeler will take you on a 2-mile voyage on the Delaware River.

S.P.L.A.S.H.

takes you back in time to the river's rich history and water ecology--from George Washington's crossing the Delaware to the wildlife that inhabit the water and shores--from plankton to herons! Once a vibrant waterway for commerce the river now supplies drinking water for 17,000,000 and is a recreational gem for boaters, kayakers, fishermen, photographers, and artists of all ages.

In this natural setting **S.P.L.A.S.H.** provides a unique opportunity for hands-on learning in environmental education and historical appreciation. Educators can bring their own learning activities or

S.P.L.A.S.H. can provide a program for your students. Lesson activities may emphasize:

Marine Biology--plankton and fish study

Clean Water Ecology

Navigation--river currents

History--Past and Present

Culture--artists, composers and writers

S.P.L.A.S.H. welcomes all to visit the engine area to learn about how this vessel is powered by steam.

S.P.L.A.S.H.

- seats 49 passengers on covered and open decks
- is US is Coast Guard certified with a US Coast Guard licensed Captain and crew
- is complete with marine safety equipment
- boards in New Hope PA or Lambertville NJ
- costs \$20 per person, with a minimum charge of \$695 with each additional passenger paying \$20
- Call to schedule a trip on the water May-October

For information about school programs and reservations please call:

609-924-2558

"Listening and learning---good active doing."

"This is awesome.
We can see beaver houses,
swans and other things.
This is awesome!"

"Loved the watershed talk. Rick was absolutely GREAT!" Parent

"You add much to the children's education never mind the adults! Keep up the good work."

"This is the hottest thing in the world. I thought it would be boring but it's a lot of fun!"

See swallow nests under the
Lambertville-New Hope Bridge.

or one of the many
creatures in the river.
